Application Name:

FFStonks

Application Description:

A short (2-3 paragraphs) overview description of the application. Provide enough information to explain what functionality and value your product will provide to users of your application. This should help you to define the scope of your project

Our application will provide account holders with information about the top stocks on the current market. There will be multiple web pages to display different real time stock and market information. Users will also have the ability to follow other users and see other users' favorite stocks.

There will be: a user login page, a user registration page, a home page that displays top stocks and market news, a user profile page that shows a user's favorite stocks, a search page for users to browse stocks and add them to their favorites if they desire, analytics about how a stock has done since a given user last logged in.

Vision Statement:

To empower individuals with the knowledge and tools necessary to make well informed investment decisions.
